

Copy Editing

Services included:

The assumption is that the *structural editing* for the manuscript has already been completed. Copy editing usually entails that the manuscript is closer to going into print. Thus, copy editing will require at least two readings of the manuscript to catch redundancies, typos, usage errors, punctuation errors, capitalization errors, and a review of word choice.

*Timeframe for completion varies according to the length of the manuscript.

* Stories under 5,000 words are a flat rate of \$150.
